

# 2016

# SHARP ANNUAL SCIENTIFIC MEETING

## NOVEMBER 24/25

CRIEFF HYDRO HOTEL

### “CORONARY ARTERY DISEASE - THE MANAGEMENT JIGSAW”

#### PROGRAMME SYNOPSIS

The programme covers all aspects of coronary artery disease management with keynote speakers on the burden of disease in Scotland, the impact on primary and secondary care services as well as the future management of coronary artery disease. We will have interactive workshops which will have a practical approach to improving skills in the management of chest pain, breathlessness, ECG interpretation, clinical skills and the use of cardiac medication.

Our satellite meeting will cover cardiovascular risk, treatment, interaction between ambulance services and general practice in management of Acute Coronary Syndromes in primary care and new changes to cardiac rehabilitation in Scotland.

This meeting offers an extensive programme which will be of interest to all specialist and health care professionals involved in heart disease in Scotland. There is no increase this year in the cost of attending which includes registration, two lunches, dinner and overnight accommodation as required.
